DESCRIPTION

I am a software engineer who has worked on a number kinds of OOP-based projects for 5 years. I am interested in Mathematics, Data Structure & Algorithm, and got high-ranked at some online programming contest as hackerrank, atcoder,... I like coding and hope to find a job which has new challenges in every day.

SKILLS

Bash, C/C++, C#, Unity
80%

Java, Spring Boot, Kotlin, Android
90%

PHP, CakePHP, CodeIgniter, Laravel
90%

Javascript, Nodejs
70%

SQLite, MySQL, MS SQL
85%

Flutter, Xamarin
40%

HTML, CSS
40%

INTERESTS

- Chess, Pingpong, Volleyball
- Traditional film and music

🎓 EDUCATION

QUANG XUONG 2 HIGHSCHOOL 2006/09 - 2009/06
Natural Science course
(Math, Physics, Chemistry,...)

HANOI UNIVERSITY OF SCIENCE AND TECHNOLOGY 2009/09 - 2011/03
Electronic Engineering and Communication course
(Basic Math, Physics, C/C++,...)

TOKYO JAPANESE LANGUAGE EDUCATION CENTER 2011/04 - 2012/03
Japanese course
(Math, Physics, Chemistry, Japanese, English,...)

NATIONAL INSTITUTE OF TECHNOLOGY, AKASHI COLLEGE 2012/04 - 2015/03
Electrical and Computer Engineering course
(Electrical circuit, Data Structure & Algorithm, Graph theory,...)

THE UNIVERSITY OF ELECTRO-COMMUNICATIONS, TOKYO 2015/04 - 2017/03
Computer Science course
(Datastructure & Algorithm, Game theory, Graph theory,...)

🏢 WORK EXPERIENCE

📅 **Android Developer at www.leontec.co.jp (2015/10 - 2017/12)**

I was student at this time, but it is a good chance to start my career from this part time job.

- RIMS (River Management System): Android, Barcode.
- DIMS (Disaster Management System): Android, Barcode.
- Drug Manager (Drug): Android, Barcode.
- GAS Manager (GAS): Android.

📅 **Android Developer at www.fujinet.net (2018/04 - 2018/07)**

This is big outsource company, but I could not perform at best since my assigned projects were already at final stage, pre-released.

- Dating app: Android (Custom View, Fix bug,...).
- Server config: Google Cloud Platform server config (Compute engine, BigQuery, Dataflow...), Springboot api development.

📅 **IT Comtor at <https://posapp.vn/en/> (2018/08 - 2019/08)**

Mainly communicate with Japanese customers to get requirements.

- Go-eki (Dating site, <https://go-eki.com>): MySQL, PHP, JS, HTML.
- Posapp (Order app): Android.

📅 **Developer at <https://tgi-sol.com/> (2019/09 - 2020/03)**

This is start-up company, so I can touch with various kind of projects:

- Outdoor Path Finding (Navigation): Android, ARCore.
- Wall Detection (Image Processing): Android, OpenCV.
- Air-conditioner remote controller (IoT): Arduino C++.
- Hashimoto Transport App (Windows app): .NET Framework.

📅 **Bridge engineer at <https://marble-d.co.jp/> (2020/04 - 2021/12)**

Discuss project's requirements with Japanese team, and then breakdown the project into tasks for Vietnamese team. Also work directly with leader to design database and coding with another developers.

- SOM (Wine event site, <https://sommelier.jp>): MySQL, CakePHP, Spiral, Robot Payment.
- FIT (IT post site, <https://fit.nikken.co.jp>): MySQL, CodeIgniter, Spiral.
- CHOT (Stock site, <https://c-hotline.net>): MySQL, CodeIgniter, Spiral, Google Analytics.
- BTIS (School syllabus site): MySQL, Wordpress, PHP, Spiral.
- COSMOS (Estate site): MySQL, Laravel.

📅 **Team member at <https://kilobytes.com.vn/en> (2021/12 - now)**

Currently I mainly work in a team with some projects:

- Iron Sky (NFT game): Unity C#, MS SQL, ASP.NET Core, Realtime with WebSocket.
- Box Counter (Image Processing): .NET Core, Emgu CV.

🌟 CERTIFICATIONS

- N2 at Japanese Language Proficiency Test 2013/07
- TOEIC 600 at Proficiency Public Test 2014/07

📱 ADDITIONAL INFORMATION

Here is some apps that I have published at Stores:

- Gps Compass: <https://play.google.com/store/apps/details?id=compet.gpscompass>
