DESCRIPTION

I am a software engineer who has worked on a number kinds of small and big OOP-based projects for 5 years. I am interested in Mathematics, Data-structure & Algorithm, and got high-ranked on some online programming contest sites like hackerrank, atcoder... I like coding and hope to find a job which has new challenges in every day.

SKILLS

Bash, C/C++, C#, Unity

80%

Java, Kotlin, Android, PHP

90%

Javascript, Nodejs, SQLite, MySQL

70%

Spring Boot, Flutter

50%

HTML, CSS

40%

INTERESTS

- Chess, Pingpong, Volleyball
- Traditional film and music

EDUCATION

QUANG XUONG 2 HIGHSCHOOL

2006/09 - 2009/06

Natural Science course
(Math, Physics, Chemistry...)

HANOI UNIVERSITY OF SCIENCE AND TECHNOLOGY

2009/09 - 2011/03

Electronic Engineering and Communication course
(Basic Math, Physics, C/C++...)

TOKYO JAPANESE LANGUAGE EDUCATION CENTER

2011/04 - 2012/03

Japanese course
(Math, Physics, Chemistry, Japanese, English...)

NATIONAL INSTITUTE OF TECHNOLOGY, AKASHI COLLEGE

2012/04 - 2015/03

Electrical and Computer Engineering course
(Electrical circuit, Datastructure & Algorithm, Graph theory...)

THE UNIVERSITY OF ELECTRO-COMMUNICATIONS, TOKYO

2015/04 - 2017/03

Computer Science course
(Datastructure & Algorithm, Game theory, Graph theory...)

WORK EXPERIENCE

Android Developer at www.leontec.co.jp

📅 2015/10 - 2017/12

- Develop Android barcode-based apps.
- Skill: Debugging, Multi-threading, RESTful Api.

Android Developer at www.fujinet.net

📅 2018/04 - 2018/07

- Android skill: Custom Views, Design Pattern,...
- Server skill: Google Cloud Platform server config (Compute engine, BigQuery, Dataflow...), Springboot api development.

IT Comtor at <https://posapp.vn/en/>

📅 2018/08 - 2019/08

Directly get requirements from JCustomer and schedule/breakdown them for VTeam.

- Touching site: <https://go-eki.com/>.
- PHP skill: Pure php implementation.

Android, C# Developer at <https://tgi-sol.com/>

📅 2019/09 - 2020/03

- Android app development: Path Finding (ARCore), Wall Detection (OpenCV), Air-conditioner remote control (IoT).
- Windows PC-app maintenance.
- Framework: Android java, .NET, Arduino C++.

Bridge engineer at <https://marble-d.co.jp/>

📅 2020/04 - 2021/12

Acts as TaskHandler between JCustomer and VTeam. Also work as a developer, website maintainer.

- Touching sites: <https://sommelier.jp/>, <https://fit.nikken.co.jp/>, <https://c-hotline.net/>,...
- Frameworks: Cakephp, Codeigniter, Laravel.
- Services: Google Analytics, Spiral, Robot Payment,...

Unity C# game developer

📅 2021/12 - now

For now still in developing a multiplayer game.

- Client skill: oauth with 3rd-provider, async/await with Task/UniTask, coroutine, scene layout, asset bundle loading.
- Server skill: RESTful api (PHP, C# or Kotlin...). Realtime with magiconion.

CERTIFICATIONS

- N2 at Japanese Language Proficiency Test July, 2013
- TOEIC 600 at Proficiency Public Test July, 2014
